

## KEEP DEVICES CHARGED WHILE ON THE GO! Get a Power Bank and Stay Connected!

Power Bank is an on-the-go rechargeable device that is designed for powering mobile gadgets such as phones, MP3 players, tablets, and handheld gaming devices while being away from other power outlets. With the portable battery to provide backup electricity, you can be sure to stay connected with family and friends on the Social Media, get in touch with colleagues by phone and stay in the mobile game without having to worry about the battery level.

### PRODUCT FEATURE

 **Long Lasting Rechargeable Battery**  
With up to 500 charging cycles

 **Fast Input Charging**  
Allow high charging current up to 2.5A

 **Battery Capacity LED Indicators**  
Easy to monitor battery status

 **Multi Level Protections**  
Safeguard your USB chargeable devices

 **Slim and Lightweight Design**  
Compact casing with premium lithium polymer battery cells

 **Energy Saving Technology**  
Auto shutdown after 15 seconds standby

 **Fire-resistant Capability**  
With UL94 V-0 rating

 **Tablet Ready**  
Powerful enough to charge most tablet models

## CHARGE YOUR MOBILE DEVICE ANYWHERE, ANYTIME!

### Guarantee 500 Charging Cycles

Our premium lithium polymer battery cells are UL and BIS certified and rigorously tested to ensure top quality and durability.

### Fast Charging

Still waiting for your power bank to recharge? The Power Bank recharges faster with 2.5A and provides 2.1A fast output charging to save time on recharging multiple devices.

Model	CP5000PEG-RD	CP10000PEG-RD	CP15000PEG-RD
