

OUR STORY

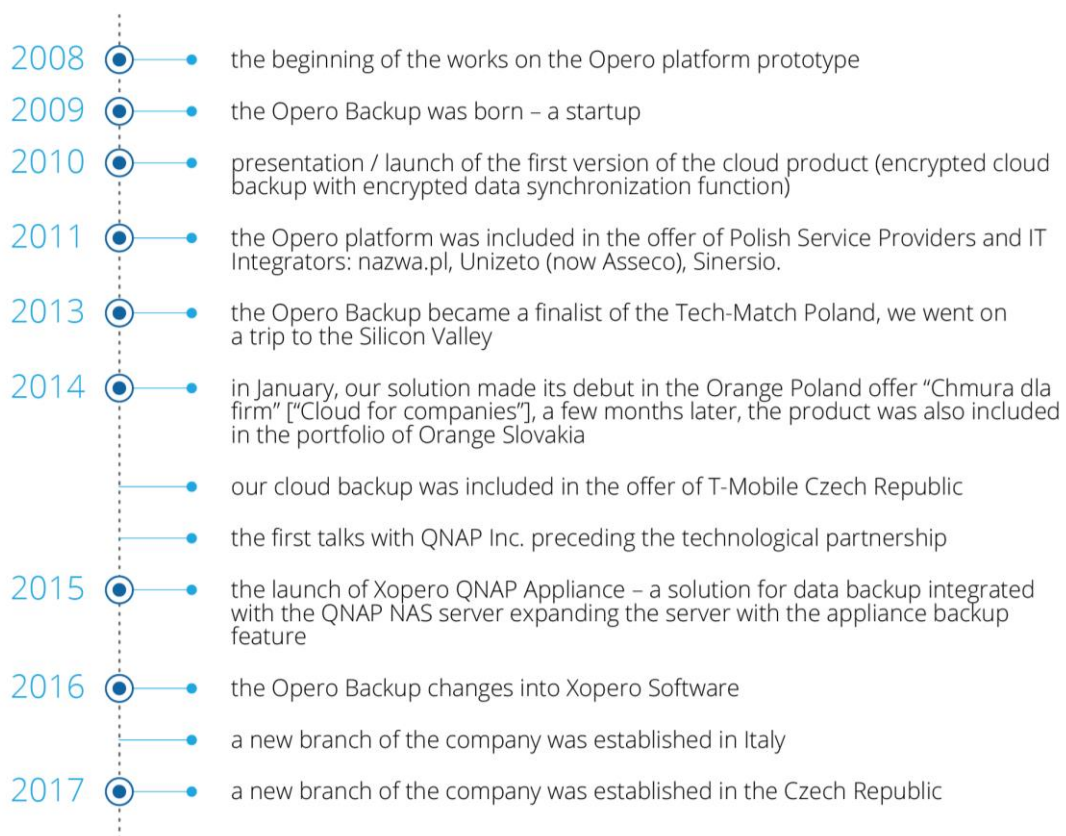

Xopero works, so you can too!

Xopero develops and produces a comprehensive range of professional tools for protecting and restoring critical business data. We are Europe's leading provider of data backup solutions. Our offer includes: appliance backup, local backup, cloud backup, mobile backup, hybrid backup, disaster recovery and business continuity solutions.

Xopero products allow backup and recovery of: files, folders, endpoints, databases, mailboxes, servers, network localisations and virtual environments

Our customers reflect a wide range of business sectors: small to medium-sized organisations, large companies, public administration, banking and finance, education, medicine, telecommunications and IT.

KEY MOMENTS

OUR VALUES

We understand how important our client's data is to their business. We constantly develop and improve Xopero products to provide even better data protection, data security and business continuity. Our aim is to limit the risk of data loss and business downtime to zero.

THE FOUNDER – A SHORT BIO

Łukasz Jesis – CEO

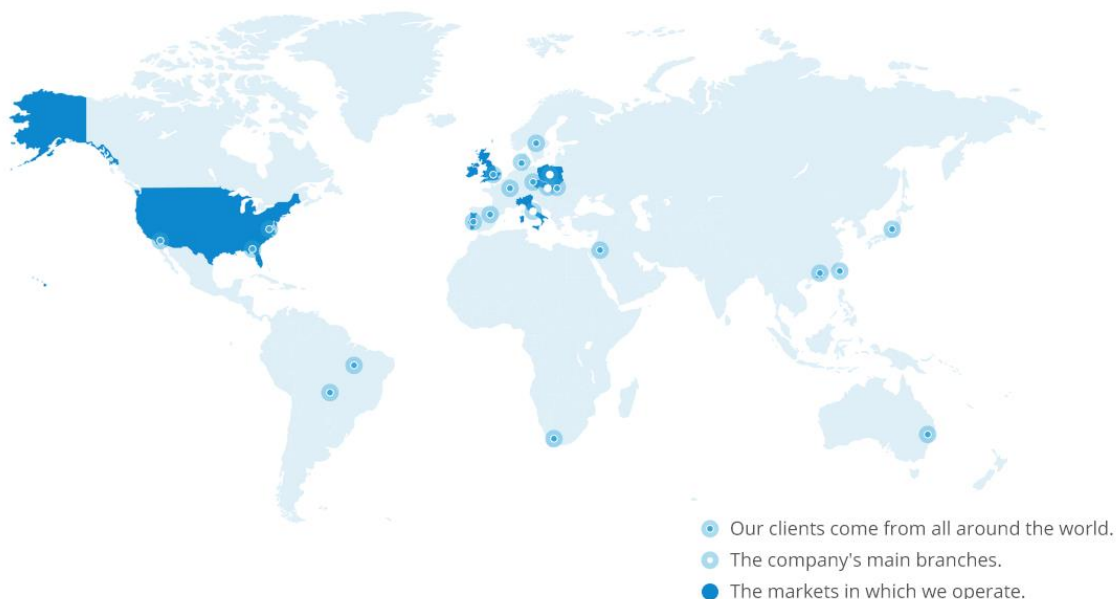

Founder and Managing Director of XOPERO, the greatest manufacturer of backup and data recovery in Poland. He graduated from WSB University in Poznań. Connected with the ID industry for nearly 12 years. He has extensive experience in the development of IT products. He has so far successfully introduced four advanced backup solutions into the market: Xopero Backup Appliance, Xopero Backup & Restore, Xopero Cloud as well as Backup eXpert.

Leading Polish companies, suppliers of teleinformatics services, among others Czech T Mobile and Polish and Slovak Orange, use XOPERO technologies together with data centers, suppliers of IT services and hosting companies.

XOPERO GOES GLOBAL

We are global

Simple backup. Dependable storage. Smart recovery.
