

XOPERO DATA PROTECTION

Xopero works. So you can, too.

Xopero - we are global

Xopero Software

Simple backup. Dependable storage. Smart recovery.

We are the leading producer of backup solutions in Europe, providing professional tools for comprehensive backup of critical business data.

Our customers belong to many different sectors: SMB, public administration, banking and finances, education, medicine, telecommunications and IT.

Our story

Dependable storage

Storage takes no less important part in backup process. What is worth, even the most advanced DR solution if you can't get your data back because of storage the failure? That's why we pay extra attention to safety and reliability of Xopero's storage.

Simple backup

Protect all important data with ease. Whether you backup 5 or 5000 PCs, servers or virtual machines, backup configuration will take just a moment.

Smart Recovery

System crashed? Hardware is not working? The failure type doesn't matter, because all vital data can always be recovered in few minutes.
