

# Clean air for a better learning experience

## Edimax Air Quality Sensor

### Monitor Areas Cameras can't

Monitor for safety and vaping or smoking activities in private areas like bathrooms.

### Comprehensive Air Quality Monitoring

Tracks air quality, temperature, humidity, for healthy learning environments

### Real-Time Air Quality Updates

Provides real-time notifications for vaping, smoking, THC vapor or marijuana smoke

### User-Friendly Interface

Features an easy-to-read display and simple setup, for ease of use by any member or staff

### Enhanced Safety

Detects and alerts you to dangerous levels of carbon monoxide that can be life-threatening

### The Edimax Air Quality Sensor monitors:

- ✓ Temperature & humidity
- ✓ Fine dust (PM2.5 and PM10)
- ✓ Carbon dioxide (CO2)
- ✓ Carbon monoxide (CO)
- ✓ Vape
- ✓ Total volatile organic compounds (TVOC)
- ✓ Tetrahydrocannabinol (THC)
- ✓ Nitrogen dioxide (NO2)
- ✓ Air Quality Index (AQI)

### Try before you buy
