

Spin 3

Productive from any angle

 Windows 10

INTRODUCING THE NEW *Spin 3*

**AT HOME IN THE  
BOARDROOM OR  
THE CLASSROOM**

The Spin 3 convertible touchscreen laptop features all-day battery life, Acer Active Stylus and the power of up to a 10th Gen Intel® Core™ i7 processor. Get more done with the new Spin 3 – wherever you are.

**NEW SPIN 3 ENHANCEMENTS**

10th Generation Intel® Core™ i3/i5/i7 processor

Garageable Stylus with quick charging – 15 second charge provides another 90 minutes use

New hinge design with improved cooling & slight tilt for comfortable typing

Improved 12 hour battery life with fast charge

# MADE TO WORK HOW YOU WORK

At the core of the Spin 3 is the innovative 360° touchscreen. Its design opens up a world of options on how you can get work done. The Spin 3 is easily transformed into 4 versatile modes:

**TABLET MODE** Great for reading and reviewing documents while on the go. Slide out the Acer Active Stylus for the perfect note-taking companion.

**DISPLAY MODE** Ideally angled for video calls. The keyboard disappears letting you focus on the task at hand.

**TENT MODE** Meeting at a cafe? Flip to tent mode to easily share your presentation.

**LAPTOP MODE** The tilted design provides a comfortable typing experience on the backlit keyboard

The 360° hinge also creates extra ventilation space beneath the Spin 3 to provide more airflow and increased thermal performance.

# BRIEFCASE OR BACKPACK, IT FITS RIGHT IN

At just 16.9mm thin and 1.5kg<sup>2</sup> in weight, you can take the power of the Spin 3 where ever you go. Whether you're boarding flight 56 to Melbourne or bus 231 to school, the Spin 3 can be easily slipped into any bag.

## A SCREEN FOR A WIDE AUDIENCE

Share what's on your screen with colleagues and classmates as colors stay true from a viewing angle of up to 170°.

The 14" 1920x1200 FHD IPS touch display with Corning® Gorilla® Glass boasts a 7.82mm thin bezel to give you even more screen real-estate to share your work.

## CREATE A WORK OF ART OR A NEW FLOW CHART

It's easy with the Acer Active Stylus.

Universally compatible with all touchscreen displays, the Acer Active Stylus with Wacom AES 1.0 features 4,096 levels of pressure sensitivity for incredibly precise strokes and movements.

Whether you're marking exams or signing contracts, it's all in the flick of a wrist with the Acer Active Stylus.

<sup>1</sup> Battery life varies depending on product configuration, power settings and usage, among other factors. Please visit [www.acer.com](http://www.acer.com)

Just **15 seconds of charging** provides 90 minutes of use.

# IMMERSIVE SOUND

Speakers that always face you are essential for getting the most out of your media. Combined with Acer True Harmony, optimised DTS® Audio, and Microsoft Cortana support, the Spin 3's dual front-facing speakers provide flexible and crystal clear sound in every mode.

# LEAVE THE CHARGER AT HOME

With a battery providing 12 hours<sup>3</sup> consecutive use, the Spin 3 battery easily gets you through the day. Stop peeking at your battery status hoping you'll make it through class or the meeting that should have ended half an hour ago. Enjoy peace of mind and stay focused on your work.

And when the going gets tough, a quick 30 minute charge provides a battery boost equivalent of a further 4 hours of video playback.

## POWER TO MAKE THE DAYS FLY BY

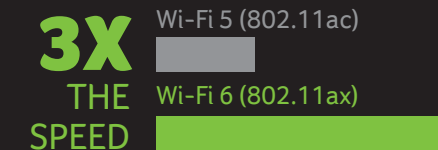

Nothing makes a day go slower than battling with performance on your laptop. With the Spin 3 and Intel® Core™ processor options, you'll fly along all day. Jump from class to class, meeting to meeting effortlessly and smoothly.

Combined with expansive fast SSD storage options, Intel® Iris® Plus Graphics, the Spin 3 packs an immense amount of power into a very small frame.

## MAKE A CONNECTION

At school or in the office, reliable network access that won't let you down is a must. With dual-band Wi-Fi 6 (802.11ax) and 2x2 MU-MIMO technology, the Spin 3 can handle multiple device network connections at faster speeds simultaneously - whether you're streaming or in a meeting.

Connecting to external devices like hard drives and monitors is easier and faster than ever with a lightning fast USB Type-C port with Thunderbolt™ 3 support and 2 SuperSpeed USB Type-A ports for even more flexibility.
