

Destined for even greater things, the new, refreshed **CityGear® 3** range is ready to take on today's ever-changing workforce. Upholding the qualities that have made CityGear popular, the new **CityGear 3** range takes durability, protection, storage capacity and versatility to the next level, ensuring it continues to be a Targus favourite!

Today's modern workforce is increasingly mobile and tech dependent, with a need to carry different loads at different time. There is also a desire for minimalism, an appreciation for the small details, as well as a high expectation of quality. The **CityGear 3** range has evolved to be even more appealing thanks to:

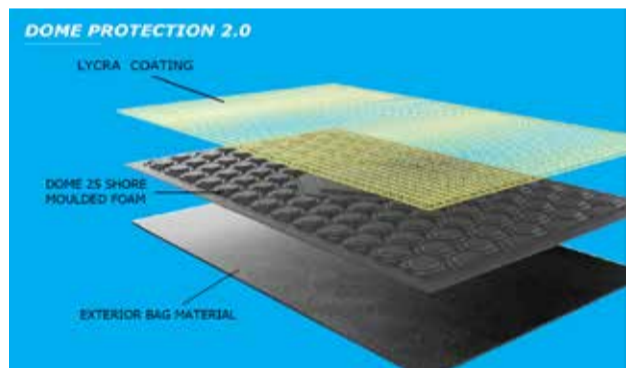

- ü Improved style and performance
- ü A greater choice of silhouettes and sizes to accommodate devices of various dimensions
- ü Enhanced fabrics and fittings, including tougher handles and base materials
- ü The ability to use several styles together, such as a sleeve and a roller

Dome 1.0
68% coverage

Dome 2.0*
100% coverage

Reflecting the Targus promise of 'best protection for your tech', the **CityGear 3** range showcases a smarter, more effective protective system. **Dome 2.0*** offers greater coverage and superior performance in the event of shocks caused by knocks and drops. It's also visible and more space efficient – 50% slimmer than Dome 1.0.
